

PRODUCT DESCRIPTION

Home T8 style grow tube Model: AD-T8-4FT-01

Advanced Solutions full spectrum Home Serie T8 style horticultural LED tubes are available in different power sizes from 10w (2') - 14w (3') - 18w (4'). Our Home T8 grow tube will provide your indoor plants with quality photosynthetic light that promote good plant health all year round. This type of lighting solution lends itself particularly well to vertical or multi-story cultivation with distances of less than 12 inches from the canopy. Up to 6 tubes can be paired in series with the same switch.

TECHNICAL SPECIFICATION	HOME T8 TUBE LED FULL SPECTRUM
LED Type	370 Pcs, 2835 SMD
Spectrum Color	Full Spectrum
Lens	Clear
IP Rating	IP55
Max Power	22 Watts
Input Voltage	Autodetection 100-277V
Power	18 W per tube LED (4ft)
Power Factor	> 90
PPFD	150 $\mu\text{mol/s}$
Operation temp	32 à 36C°, at .amb.t 25-26 C°, 1km/h wind
Thermal Management	Passive
Luminous Flux :	>1000 lumens
Dimensions (LxD)	1200* D 26mm (4FT)
Fixture Dimensions	46" x 1.3" x 1.4"
Weight Estimate	2.14lb / 1.3 kg
Light Distribution	120 degrees
Dimming options	None
Chips Lifespan	L90 : > 50,000hs
Limited Warranty	3 years
